

SARTAJ HUSSAIN

Frontend Developer | **React.js** · Redux · **JavaScript (ES6+)** · Responsive UI
Noida, India | +91 9368776723 | sartajhusain770@gmail.com | [LinkedIn](#) | [GitHub](#)

PROFESSIONAL SUMMARY

Frontend Developer with 2+ years of experience delivering 5+ live client web applications across e-commerce, ed-tech, and service industries. Reduced page load times by 30% and improved client engagement by 20% through performance-first React.js development, REST API integration, and responsive UI engineering. Skilled in building scalable, component-based UIs with React.js and Redux, optimizing Core Web Vitals, and ensuring cross-browser and cross-device compatibility. Experienced in Agile environments, CI/CD pipelines, and cloud deployments on Vercel, Netlify, and Render.

TECHNICAL SKILLS

Frontend: React.js, Redux, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Bootstrap, jQuery, Responsive UI

Backend & DB: Node.js, Express.js, MongoDB, MySQL, PHP (CodeIgniter 3), REST API, JWT Authentication

Tools & DevOps: Git, GitHub, CI/CD Pipelines, Vercel, Netlify, Render, cPanel, Postman, VS Code, Duda Builder

PROFESSIONAL EXPERIENCE

Frontend Developer — EVG Software Solutions, Noida Sep 2023 – Present

- Architected and shipped a production-ready React.js e-commerce platform serving 1,000+ product SKUs, handling real-time user interactions and dynamic content rendering.
- Reduced page load times by 30% by implementing lazy loading, code splitting, and asset optimization — directly improving Core Web Vitals scores.
- Boosted client website engagement by 20% through intuitive, mobile-first UI redesigns tested across 5+ browsers and 10+ device viewports.
- Delivered 5+ live client websites end-to-end — from design integration to deployment — across e-commerce, cab booking, ed-tech, and events sectors.
- Integrated 8+ REST API endpoints for JWT authentication, product listings, and order management, reducing backend round-trips by optimizing request batching.
- Automated deployment pipelines using CI/CD on GitHub Actions, reducing manual release effort by 40% for international USA-based client projects on Duda platform.

PROJECTS

MERN Blog Application — Full-Stack Platform <https://blog-application-774e.onrender.com/>

- Independently engineered a full-stack blog application end-to-end, covering both frontend and backend — JWT role-based authorization, complete CRUD REST APIs, and MongoDB Atlas cloud storage — showcasing hands-on full-stack MERN ownership.

Ereganto — E-commerce Platform for Premium Bags <https://ereganto.com.au/>

- Built a full-featured international e-commerce storefront with secure payment gateways, product catalogue, and fully responsive UI — resulting in a live production site for an Australian client.

Spirit Masters — Event Bartending Services <https://www.spiritmasters.in/>

- Designed and developed a professional corporate website with polished service pages, modern responsive layouts, and custom booking UI — delivered on schedule for a live Indian client.

The Best Cab — Cab Booking Platform <https://thebestcab.in/>

- Developed a responsive cab booking website with vehicle selection, booking form, and confirmation flow — live in production.

Komplytek Academy — Online Courses Platform <https://komplytek.com/academy/>

- Built an e-learning e-commerce platform supporting course purchases and access management for an international client.
